Record of Town Meetings

MEETING OF MARCH 14, 1932

Meeting called to order at 7:32 o'clock P. M. by Moderator O'Connell, who read the call for the meeting.

On motion by M. E. S. Clemons:
Voted: That further reading of the warrant, with exception of the Constable's return be omitted.

Constable's Return read.

ARTICLE 1

Article 1. To see if the town will vote to recommend to its several boards and heads of departments, in order that the burden suffered by all the public during the present financial stringency and depression may be borne more equitably, that they reduce the salary or compensation of all officers or employees appointed or employed by them for any part of the current year.—Finance Committee

On motion by Finance Committee:
Voted: That the subject matter of this article be indefinitely postponed.

ARTICLE 2

Art. 2. To act upon the reports of town officers as published.

On motion by M. E. S. Clemons:
Voted: That the report of the Town Officers as published be laid upon the table.

ARTICLE 3

Art. 3. To choose all Town Officers not required to be chosen by ballot.

On motion by A. L. Gardner:
Voted: That a committee of five be appointed by the Moderator to bring in nominations for all Town Officers not required to be chosen by ballot.

ARTICLE 4

Art. 4. To see if the town will authorize the Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year, beginning January 1, 1932, and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of said financial year.

On motion by A. H. Boardman:
Voted: That the Town Treasurer, with the approval of the Selectmen,

be and hereby is authorized to borrow money on and after January 1, 1932, in anticipation of the revenue of the financial year beginning January 1, 1932 and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of the financial year beginning January 1, 1932.

Wakefield, in common with other municipalities, has been faced this year with problems unknown during normal times—problems that are a product of the so-called period of depression.

Superintendent Denning, new appointee of the Highway Department entered on his duties with the balance of an appropriation only slightly over one-half the amount available in the same department the previous year, while demands for work were greater than ever before. In spite of these facts, the Highway Department closed the year with a number of projects completed in a commendable manner, and with all bills paid—a condition which has occurred but once since 1915. We believe this worthy of mention because it shows that the new superintendent who had entire charge of hiring help for his department, and, in general, distributed it as equitably as possible, kept in mind that it was essential that the main part of employment be given to those who gave in return the best work for the money paid them, and by careful planning, assured no expenditures made beyond the amount allotted the department.

The car tracks on Main Street from Water Street to the Rockery were resurfaced with asphalt. Besides greatly improving the general appearance of the entire square, this work does away with the old cobblestone construction that made riding very uncomfortable, raised the central portion of the road which acted as a trough in every rain and afforded the opportunity to install manholes so that an old drain under the tracks can now be cleaned out without disturbing the pavements which before was necessary.

Hopkins Street, from Prospect Street to the Reading line was widened and rebuilt with bituminous macadam. Although not a main artery, increased travel on this street resulting from its improved condition will tend to develop a section of our town now sparsely populated.

Hillside Avenue, from Fairmount to Cedar Street, was widened and rebuilt with bituminous macadam, correcting a poor and dangerous condition.

Dillaway Street, from Sidney Street to Green Street, and Upland Road were rebuilt with bituminous macadam, necessary catch basins and pipes. The work on these streets was done, although not accepted streets, because wash of gravel and debris from them after every rain caused the town to annually expend considerable money. The work represents a worth-while future saving, and was done after several conferences which resulted in co-operation of the abutters, Municipal Light, Water and Highway Departments, providing funds to carry out the project.

Considerable sidewalk has been laid this year, and much more should be undertaken, the Board believing that consideration should be given pedestrians as well as vehicular traffic.

Wiley Street Bridge has been widened and rebuilt from granite slab construction to reinforced concrete. The street has been straightened, widened and rebuilt so that property on the street, heretofore unaccessible may now be reached with fire apparatus.

The drainage problem is a major one, and can be corrected only with a considerable expenditure of money. We endeavored this year to correct troublesome drainage in the various districts. The old drain running east and parellel to Main Street from Mechanic Street to Lincoln Street was cleaned and manholes installed. In Greenwood, the culvert under the B. & M. R. R., was lowered and laid with 24″ reinforced concrete pipe, across Myrtle Avenue, to relieve swamp area west of Myrtle Avenue, and to adequately drain the watershed of that area.

After a conference with all public works departments, it was agreed that the Highway Department act as a clearing house for the unemployed, a clerk to be paid jointly by the several departments, keeping a card index with history and work allotted each applicant. This plan has proved so valuable in checking beyond question how much work has been given out, that it is recommended that it be continued while such conditions as at present exist. The records show applications made by 578 men 83 of whom were veterans and citizens, 437 citizens, and 58 non-citizens.

Through the efforts of Building Inspector MacInnis who is also Compensation Agent and a new appointee this year, a uniform charge for doctors' services has been established, which represents a saving to the town. Several buildings which yielded no revenue to the town, but have stood for years, a detriment and fire hazard, particularly to the locality in which they were situated, have been removed this year. The Inspector has discovered several cases of building for which no permit had been applied for. This constant checking up not only represents increased revenue from paid permits, but furnishes valuable information for the assessors. Property for which Reading has been receiving taxes for the past 60 years, was found by the Inspector to be located in Wakefield and will be so assessed in the future.

Realizing that the economic issue is the most important matter confront-

ing the town, the Board of Selectmen have met the situation in every department under its jurisdiction. All employees and heads of departments under the Selectmen have been paying their telephone expenses this year. We are the only department that has instituted this economy. There have been three readjustments made in the pay of Highway employees; one when Superintendent Denning assumed his duties; one represented by the general 10% wage reduction; and one whereby men, until recently employed full time, were placed on the so-called stagger system, which in some cases means a reduction of as much as 50 or 60% of their former wages. The Board sincerely regrets this decrease of income to its employees, but found it expedient to meet the decreased income of the town. The Board can conscientiously state that every instance of laxity in expenditures has been corrected, and that diligence in the interests of the taxpayers has been paramount in their efforts to faithfully serve.

The Board takes this opportunity to thank all departments for co-operation during the year, and extends to its clerk, Harry A. Simonds, appreciation for his loyal assistance.

Report of Public Welfare Department December 31, 1932

To the Citizens of Wakefield:

The year 1932 has seen the greatest expenditure of Welfare Relief in the history of the town. To an original appropriation of $85,785.00, was added $12,000.00 transferred from the Reserve Fund in the late fall, but even this was not enough to meet the conditions with the result that the Department is carrying over $16,991.30 in unpaid bills.

Under normal conditions, the peak of Welfare expenditures comes during the winter months when men who can usually find some sort of work during the summer find it necessary to be helped through the winter. For 1932 this condition was reversed and instead of diminishing in April, the calls for aid continued to mount until the end of July. In August and September there came a decrease in the number of calls which was encouraging, but with the coming of cold weather the need for aid again increased until at the beginning of the year 1933 it had passed the peak of late July 1932.

From an expenditure of about $1,200 a week during 1932 in grocery orders, it is estimated that on the average $900 of this amount is given to able bodied men capable and willing to give $900 in labor for the aid which they receive.

In theory it would be to the financial benefit of the town to use all of this available labor on projects requiring labor in whatever department the need might be. In practice, there are obstacles to a strict administration of such a policy. There are many men who have kept themselves and families supported on what they have received from town work and any policy which forces all labor men to secure work through the Welfare Department is short sighted.

During the year the department has furnished labor to the various town departments, but payment has been made in food orders, not in cash. The charge has been against the appropriation of the Welfare Department.

Under this plan, the labor furnished is estimated as follows:

Street Department:

Cleaning Streets and clearing brush—12 men for 12 weeks.
Clearing Snow—25 men, 3 days.

Moth Department:

Trimming Trees—6 men for 12 weeks.

School Department:

Cleaning Lafayette School—4 men for 3 weeks.
Clearing Grounds—Greenwood School—2 men for 1 week.

Board of Health:

Regular Dumps—6 men when required for 41 weeks.
North Avenue Dump—5 men for 3 weeks.
Melvin Street Hill—4 men for 1 week.
Drain Water Street—2 men for 2 weeks.

Water Department:

At Wells—5 men for 3 weeks.

Recreation Commission:

Greenwood Playground—12 to 20 men, 8 weeks.

Park Department:

Cemetery—7 men 12 weeks.

Public Library:

Cleaning Gounds—1 man 1 week.

Welfare Department:

Clearing private land to secure wood—50 men 7 weeks.
Crystal Lake Woods—30 to 40 men—12 weeks.

In addition to the work listed the Department has aided many men to food orders while the men were working out their indebtedness to the Light and Water Departments.

This is not intended to be a complete list of work accomplished, but is sufficient to remove the impression which many people in the town now have that nothing is secured in return for the aid given by the Welfare Department.

The willingness of the majority of the men to do their best on work in most instances unfamiliar to them, and for grocery orders, not cash, has been a source of great satisfaction the past year. In general there was less difficulty in handling men in 1932 than in 1931. Not accustomed to the work, and working only part time, they cannot be expected to do the same amount expected from men working regularly and hired on the basis of their ability to do a certain job.

Due to the great number being aided and the closeness of the two holidays, Thanskgiving baskets were omitted this year and all effort placed on making Christmas somewhat happier for those for whom it had dire prospects indeed.

Through the splendid co-operation of the Christmas basket committee, the firemen, and the unemployed men themselves, the Christmas work was accomplished just as successfully as in previous years when the number requiring assistance was many times smaller.

The Town Infirmary, under the supervision of Mr. and Mrs. Melvin Brown, has had a gradual increase in the number of inmates, caring for 19 at the close of the year and adding two more immediately after the new year opened, making a total of 21. This is the greatest number ever cared for, except for a few days during the year when the number was 25.

Despite the greater number of inmates, the net cost of the farm has been

reduced from $12,345.15 in 1931 to $10,100.32 for 1932. This has been accomplished even though the farm receipts were $2,191.77 less than those of a year ago.

The year 1932 was the first complete year of operation under the new Old Age Assistance Law, and the amount expended was $7,762 in this class of aid.

Respectfully submitted,

CHIEF FRED D. GRAHAM,

Wire Inspector.

Report of Board of Health

The statistical report following shows that the community has escaped epidemics, or unusual incidence of infectious disease. Particular attention is called to the low incidence of Diphtheria for the second consecutive year, only two cases in each of the two years and none in a child in school.

The contagious diseases reported are as follows:

Tuberculosis	13
Scarlet Fever	42
Diphtheria	2
Lobar Pneumonia	16
Whooping Cough	5
Tetnus	1
Influenza	1
Mumps	3
Cerebro-spinal Meningitis	2
Septic Sore Throat	1
Measles	8
Chicken-pox	27

No general revision of the Regulations of the Board had been made since 1910, though some special regulations have been made from time to time. The State Department of Health has issued a standard form which has been widely followed throughout the state. With this standard form as a basis we have been working for two years on a complete revision of our regulations, which has recently been adopted and published. The most drastic changes are those relating to the production and distribution of milk, and on the keeping of swine and domestic animals in general.

When the state completes the testing of cattle for which application has been made, all milk produced or sold must be from tuberculin tested cows, or be pasteurized. We have established a standard for bacteria count in milk and cream much more rigid than the average, but it is a standard that has been maintained for two years or more. The milk and cream produced and sold in Wakefield is of excellent quality and uniformly well handled.

The Board is of the opinion that the keeping of swine where neighbors are near is a nuisance and ought not to be permitted. We are of the opinion that the keeping of a large herd of swine is a nuisance to a wide area. The regulations are now elastic enough to prevent hardship and firm enough to prevent what we barely escaped last year, when an attempt was made to establish a piggery adjacent to a main thoroughfare.

The Welfare department has furnished labor to care for the dumps since April. Little criticism has been made of their appearance, which demonstrates that even dumps may be kept presentable if enough care is given.

We have cut salaries and reduced other items in the budget for 1933. We were able to turn back $1,385.75 from our departmental expense account of 1932, largely a saving in the care of contagious diseases, and we have based our 1933 budget on continued low incidence of contagious cases needing hospital care.

Unpaid bill—Garbage account $82.00 due Public Welfare Department for board.

CHARLES E. MONTAGUE, M. D.,
CHARLES W. DeWOLF, M. D.,
WESLEY S. GOODWIN.

Report of Plumbing Inspector

To the Board of Health:

I herewith sumbit my report for the year ending December 31, 1932.

Number of permits granted	68
Number of fixtures installed	294

Divided as follows:

Bath tubs	58
Lavatories	46
Closets	65
Sinks	47
Wash trays	43
Boilers	30
Urinals	3
Showers	2

I have made 178 inspections.

This is the smallest annual number of permits issued in the past twenty-two years.

Respectfully submitted,

DAVID TAGGART,

Inspector of Plumbing.

Tuberculosis Dispensary Report

To the Wakefield Board of Health:

The annual report of the Tuberculosis Dispensary is herewith respectfully submitted.

The Tuberculosis Dispensary is open the first and third Friday evenings in the month from 8 to 9, and the second and fourth Tuesday afternoons from 3.30 to 4.30.

We have examined during the year, patients discharged from sanatoria, contact cases, suspicious cases of tuberculosis, and underweight children. One hundred and eighteen examinations were made. Seventeen children and nine adults were taken to North Reading Sanatorium for further examination and X-Ray.

We feel the most important factors in the cure of active tuberculosis are:

Complete medical supervision.

Complete rest under favorable conditions.

Carefully balanced and adequate nourishment suited to the individual.

Abundance of fresh air, and if possible sunshine.

The chief factors in the prevention of tuberculosis are:

Finding existing cases of tuberculosis and bringing the patient under treatment.

Teaching him how to avoid the infection of others.

Hospitilization of tuberculosis cases, especially when there are small children in the home.

Also the general education of the people as to the measures involved in the prevention of tuberculosis, and the curability of tuberculosis in its earlier stages is of utmost importance.

We have at the present time eight patients in the different institutions, three at the Middlesex County Sanatorium, one at Rutland, one at Lakeville, one at Essex Sanatorium, and two at the Veterans' Hospital in Rutland.

Thirteen new cases of tuberculosis were reported in the year 1932, and there were two deaths.

IRA W. RICHARDSON, M. D.,

Dispensary Physican.

NELLIE B. RUSSELL, R. N.,

Dispensary Nurse.

Report of Inspector of Milk and Food

To the Wakefield Board of Health:

Gentlemen:

I herewith submit my report as Inspector of Milk and Food, for the year ending December 31, 1932.

A sharp decline in the prices of food stuffs over last year would naturally lead one to a suspicion of the quality of the same. I have therefore been prompted to keep an ever vigilant watch over this branch of my work. I am glad to say at this time, and with due credit to the food selling establishments of the town, that during the rounds of my inspections, rarely has a questionable article been found on sale. When such was the case however, corrections were always speedily and cheerfully complied with.

With regard to the milk supply, I am pleased to report the best quality ever sold in the Town of Wakefield. This statement is by no means a casual remark, but a matter of analitical record of the 240 samples taken for test, and on file in this office. I consider the manner in which Wakefield milk producers have carried on and regularly continued to market a product of superior quality, despite the attendant hardships of the prevailing times, is an outstanding service to the community and well worthy of commendation in this report. The tuberculin test petition is at present in the hands of the State Dept. of Animal Industry. Before another season has passed Wakefield will be enjoying the security of a 100% pasteurized supply of milk, or raw milk from tuberculin tested herds. I am informed by the State Dept. of Agriculture, that the operation of the recently enacted Milk Control Bill, will in no way effect or interfere with the work that is now being accomplished by local Boards of Health. On the other hand work of this nature comes in for the strongest encouragement from the Dept. and its further unyielding continuance is heartily endorsed, especially during this most trying period.

In concluding my report I wish to express my appreciation for the co-operation accorded me by your Board, as well as from the 150 or more establishments and personnel, that come under the jurisdiction of this office.

The following is a record of details and accounts:

Retail milk licenses issued—86 at 50 cents	$43.00
Dealers' Milk licenses issued—26 at 50 cents	13.00
Oleomargerine permits issued—8 at 50 cents	4.00
Ice Cream Mfr. licenses issued—4 at $1.00	4.00
Pasteurizing licenses issued—3 at $10.00	30.00
Total	$94.00

The above has been turned over to the Town Treasurer and I hold his receipt for the same.

Respectfully submitted,

LAWRENCE E. DOUCETT,

Inspector of Milk and Food.

Report of Health Officer

To the Board of Health:

Gentlemen:

I herewith submit my report for the year ending December 31, 1932.

The work of this department has not varied much from past years. There are the usual complaints, some have merit, others have not. However all have been investigated, and adjusted satisfactorily to the complainant.

The usual small dumps appear on certain outlying streets, which have to be cleaned up by the Board of Health, and no dumping signs put up. I have placed twenty six such signs in various streets the past year.

I have investigated two hundred and twenty-seven complaints and put up thirty-three contagious cards.

Respectfully submitted,

DAVID TAGGART,

Health Officer.

Report of Inspector of Slaughtering

To the Board of Health:

Gentlemen:

I herewith submit my report as Inspector of Slaughtering for the year ending December 31, 1932.

There were 529 pigs, 18 cows, 27 calves and 2 sheep slaughtered, and all found in good condition.

Respectfully,

MELVIN W. BROWN,

Inspector.

Report of Supt. of Moth Dept.

Wakefield, Mass., January 1, 1933.

To the Honorable Board of Selectmen:—

Gentlemen:

I herewith submit my report as Superintendent of the Moth Department for the year ending December 31, 1932.

This year the Gypsy Brown, Tail and Satin Moths are about the same as last year but the Elm Leaf Beetle and the Fall Web Worm are getting worse.

We have been obliged to cut down 35 shade trees which have died from various causes. We planted 125 young trees along streets where they were needed most. These trees were grown in our own nursery at Broadway.

We spent $2,045.54 for moth work, $1,666.87 for spraying and $2,632.86 for trimming and cutting down trees.

For other expenditures and appropriations of this Department see Town Accountant's report.

Respectfully yours,

JOHN A. LANDRY,

Supt. of Moth Dept.

Report of Inspector of Buildings

Wakefield, Mass., January 1, 1933.

To the Honorable Board of Selectmen:

Dear Madam and Gentlemen:

I herewith submit a report of the activities of the Building Inspector for the year of 1932.

One 1931 case totaling $208.29 will be settled in 1933.

Respectfully submitted,

JOSEPH W. MacINNIS,

Compensation Agent.

Report of the Town Planning Board

To the Honorable Board of Selectmen:

Gentlemen:

The Town Planning Board submits to you its report for the year ending December 31, 1932.

1. The Major Highway By-pass Project.

The project of a new State Highway to take through-traffic around the congested centers of Reading, Stoneham and Wakefield, which was mentioned in the report of last year, has been carried forward by joint action of the Planning Boards of the three towns.

Their recommendation was presented to the Metropolitan Division of Planning. The Division immediately saw the advantages of the proposed route over anything formerly considered and proceeded to incorporate its major features as part of a still larger scheme of State Traffic Highways which it is planning.

This larger scheme involves a change in Route 128 as it passes through Wakefield, as follows:—

From Spot Pond, northerly through open country until it strikes Albion Street just inside the Town Line, thence easterly along Albion Street and Broadway until it crosses the railroad near the Filtration Plant, thence northeasterly across the branch railroad and Main Street and along the east side of the branch railroad to the Heywood Wakefield Plant, thence along the old Salem Branch Right-of-Way to the Newburyport Turnpike and beyond.

The Planning Board is keeping in close touch with the Metropolitan Division in so far as this project affects Wakefield.

2. The Park at Church Street and North Avenue.

This land on the shore of the lake, which has great possibilities as a recreational area, and which cost the town some thousands of dollars to acquire, is in danger of becoming a dump site due to the lack of an adequate plan of development.

The Planning Board is eager to co-operate with the Park and Cemetery Board and the Recreation Commission in the perfecting of such a plan of development. With a plan adopted it seems that with the use of equipment from the Highway Department, and labor from the Welfare Department, this area can be made useful and beautiful at very little cost.

3. Industrial and Residential Development.

Recently a group of public spirited citizens have organized to encourage new industries to come to Wakefield to fill empty factory space, to relieve unemployment, to reduce expenditure by the Welfare Board, and to reduce taxation.

This activity is quite in harmony with the suggestion made by the Planning Board in its comprehensive Report and Proposed Plan for Wakefield which was prepared with the assistance of Arthur C. Comey, City Planning Expert, in 1925.

The residential development of Wakefield, however, is of as great or greater importance due to its place in the metropolitan area. An organized and persistent effort to this end would seem to be in order. These two phases of the development of the town need not be antagonistic but co-operative.

4. The Proposed Post Office.

After holding a public meeting of citizens to discuss the various sites for the proposed Post Office, the Planning Board recommended to the Government a location on the North side of Albion St. about 500 feet west of Main Street. This land was not expensive, was centrally located and a new Post Office here would rapidly enhance the value of all property in its vicinity.

When it was reported that the Post Office was to be placed on Main St. at Yale Ave., the Planning Board sent a second resolution to Washington calling attention to the importance of a design for the building in harmony with the Lucius Beebe Memorial Library.

Both communications were acknowledged by the Treasury Department.

5. Re-locating the Wakefield-Saugus Town Line.

The predicament of some thirteen families living in Saugus just across the line from Greenwood, in regard to school facilities, police and fire protection, and public services, as brought about by their remote relation to the center of Saugus, has been brought to the attention of the Planning Board with the suggestion that this district be annexed to Wakefield.

This solution of the problem has much in its favor but involves changing county lines as well as town lines and is hence a rather complex matter. It will require a great deal of study in its many aspects. This study is now going on.

Respectfully submitted,

Town Planning Board by

EDWARD M. BRIDGE,

Chairman.

Report of Bath House Instructor

Wakefield Park Board, Wakefield, Mass.:—

My report, submitted at this time is one of pleasure as I feel several improvements have been accomplished with hearty co-operation from your board.

The following data will give you some idea as to what took place, the Bath House being open 69 days from 9 A. M. to 8 P. M., daily also Sundays 2—6 P. M.

Total number in attendance	51,750
Average daily attendance	750
Maximum attendance	3,200
Number of minor injuries	144
Number of persons needing help (beyond their depth)	45
Number of suspensions	8
Number of serious accidents	0
Number starting Red Cross Life Saving Test	47
Number passing Red Cross Life Saving Test	18

Cleaning out and filling in with sand on the west side of the Bath House, relocating run in front, the filling in of the rear with sand from town pit, giving a good place to sun in, were some of the improvements accomplished.

I would suggest that a wall be built out 60 feet running northerly, parallel with the water from on the west side and the filling in with sand, the expense would be cheaper than moving the Bath House back and answering the same purpose. More lockers are also needed.

Yours truly,

A. G. ABBOTT,

Instructor.

Report of Recreation Commission

During the summer of 1932 the three playgrounds in Wakefield were operated on a reduced budget. In spite of the fact that the playgrounds were opened only seven weeks, the total estimated atttendance exceeded that of previous years. The number of children in attendance is estimated at 42,052 during the past summer as compared with 35,200 during the summer of 1931.

The playground staff consisted of the following:

Supervisor, William D. Healey.
Assistant, Joseph Casey.
Supervisor of girls' athletics, Mary L. Humphrey.
Supervisor of pageantry and folk dancing, Ellen M. Ashenden.
Supervisor of handcraft, Eleanor M. Gleason.
Assistants, Madelyn Ashenden and Verna Osgood.

The most successful feature of the 1932 program was the Recreation Commission Twilight Baseball League. The League consisted of eight teams, with about 160 men participating. It is estimated that each game was attended by more than 1,000 persons. This league provided recreation for adults who co-operated to the limit with the Recreation Commission in making the league a success.

The Recreation Commission feels that the appropriation of $940 made for recreation last year was worthwhile. We hope to continue recreation activities for the children and for adults and shall recommend that the facilities of the school buildings be made available for adult recreation and that a skating rink and tennis courts be built on the Porter-Milton Ice Company land now owned by the town.

The Recreation Commission commends the fine spirt shown by the members of the playground staff during the past summer. The success of the program was entirely due to their co-operative efforts.

Respectively submitted,

EUGENE J. SULLIVAN,

Chairman of Recreation Commission.

Report of George Washington Bicentennial Committee

Wakefield, Mass., November 21, 1932.

To the Honorable Board of Selectmen, of Wakefield, Mass.

The George Washington Bicentennial Committee appointed by you submits the following report of its activities.

The Committee began functioning early in 1931. Plans were made to bring the celebration of the birth of Washington to its peak during the period between February 22nd and Flag Day in June.

Consequently one of the major programs was arranged for the evening of February 22nd in the Town Hall. Senator Walsh of Mass., delivered a stirring address on Washington. The High School Orchestra and Glee Club provided the musical part of the program. Mrs. Eva G. Ripley, a member of the Committee, gave an interesting and instructive description of the Gilbert portrait of Washington which adorns the Town Hall Auditorium. Members of the local military company, dressed in colonial costumes acted as ushers. The Committe feel from the comments received, that the program was well received.

The other major part of the celebration was assigned to Flag Day. The Committee on account of lack of funds felt that it could not provide the arrangements suitable for the occasion and therefore invited the local Lodge of Elks to assist in the observance of Flag Day with emphasis to be laid on the life of Washington. Judge Edward S. Mathias of the Supreme Court of Ohio was the orator. His address was timely, potent, and helpful in the making of citizenship. Military organizations of the Town, Boston and nearby communities shared in the observance. The Committee was likewise assisted by the patriotic organizations of the town in making the day one to be long remembered.

The Churches on Feb. 21st planned their service so that fitting recognition was given to Washington.

During the year the Bicentennial was given prominence at different times by the Town's fraternal and social organizations.

All the schools planned exercises in which Washington figured prominently. Essay Contests were conducted. Winners were presented Washington plaques.

Elms were planted on the school grounds and other parts of the Town on Arbor Day by the school children.

The activities of the Committee were brought to an end with a dinner given by the Chairman of the Committee, Colonel Gihon. Gen. Wm. A. Pugh of Salem gave a scholarly address on Washington's Military Genius.

The Committee is indebted to the several organizations of the town who participated, to the citizens, and the Board of Selectmen for their support in giving recognition to the Bicentennial anniversary of the "Father of Our Country."

Respectfully submitted,

NED C. LOUD,

Secretary.

GENERAL MAINTENANCE

Patrol—Daily cleaning of business districts from April 1, to December 31.

Patching—The repair of breaks in streets during the entire year. Patching cost is necessarily large because the greater number of streets are gravel roads with an oil covering.

Street Cleaning—The cleaning of streets and sidewalks twice yearly. The spring cleaning was done by the regular employees of the Department. The fall

cleaning, which included cutting weeds and brush, was done by Welfare workers under supervision.

Tar and Sand—Oiling and sanding of streets that show signs of disintegrating.

The following streets were so treated:

Cedar Court
Cedar Street (Section at Cedar Court)
Cooper Street
Elm Square
Elm Street (Winn Street to Parker Road)
Everett Avenue
Evergreen Street (Laurel Street to Hawthorne Street)
Farm Street
Fitch Court
Francis Avenue
Franklin Street at Nahant Street
Forest Street
Greenwood Avenue
Grove Street
Hawthorne Street
Hillis Avenue
Humphrey Street
Lake Avenue
Laurel Street
Lee Street
Madison Avenue
Meriam Street
Morrison Road West
Myrtle Avenue
Nahant Street
Oak Avenue
Oak Street (Francis Avenue to No. 166)
Orchard Avenue
Otis Street (Vernon Street to Rockland Street)
Parker Road (Elm Street to Reading line)
Pine Street
Pine Ridge Road
Pitman Avenue
Pleasant Street (Wave Avenue to Sweetser Street)
Preston Street
Richardson Street
Sheffield Road
Spaulding Street
Spring Street
Valley Street
Wakefield Avenue (Richardson Street to Bancroft Avenue)
Warren Avenue

Oil applied	48,510 gallons
Sand Used	1,755 tons
Length of Streets Covered	9.5 miles

Repairs to Sidewalks—The retopping of existing walks, the filling of depressions and breaks, and the levelling of heaved walks.

Repairs to Guard Rail—The replacing of defective and the painting of existing guard rail.

Repairs to Equipment—Labor and parts for trucks, tractors, rollers, loaders and crusher.

New Guard Rail—Wood, iron pipe, and cable. Some of the rail set were cable guard rail with cement posts on Hillside and Fairmount Avenues, an iron pipe railing on Vernon Street at Fitch Court, wooden rails on Lake Street, Valley Street, Gould Street, and Greenwood Street.

Cleaning Catchbasins—Removal of refuse twice yearly. Certain basins required cleaning more often.

Supplies—Gasoline, oil, kerosene, alcohol, and grease.

Street Signs—Repairing and painting existing signs and erecting new ones. Each street, traffic, and railroad sign received this attention.

Traffic Lines—Painting of center lines, parking spaces, cross walks, and restricted areas. Two coats of paint were applied.

Tools—Purchase of small tools such as shovels, picks, rakes, brooms, and the upkeep of them.

Bridges and Culverts—Painting and general repairs. As an example: Wiley Street Bridge was widened and the granite slabs were replaced by reinforced concrete.

Resurfacing and Repairs—Retopping existing pavement, maintaining shoulders, correcting defective surface drainage, and building gutters after setting curb. Two important resurfacing projects were Main Street, from Water Street to the Rockery, and several sections on West Chestnut Street, from Emerson Street to Prospect Street.

Buildings—Janitor service and upkeep of garage and sheds, including light, heat, repairs to heating system, and painting.

NEW EQUIPMENT

Gasoline pump and tank.
2 snow plows for Ford trucks.
Acetylene burner.

The Highway Department furnished and set 21 stone bounds at points designated by a relocation of Albion Street, from Broadway to the Stoneham line. This relocation was made at the expense of Middlesex County.

The engineering service necessary for proper design and successful construction has been furnished by this department at no additional expense to the town. This work includes giving lines and grades for setting curbs, building sidewalks, building and resurfacing streets, laying pipe lines, building culverts and furnishing street lines requested by private owners.

Respectfully submitted,

HARRY H. DENNING,

Superintendent of Streets.

23rd Annual Report of the Wakefield Water and Sewerage Board

The Wakefield Water and Sewerage Board presents herewith its annual report, covering operations of the Department for the year ending December 31, 1932.

Detailed figures will be found in the report of the Town Accountant.

	$89,980.26		$89,980.26

The analysis of the filtered water by Weston & Sampson, Engineers for the Water Department, indicates that the filters are operating efficiently. No money has been expended for repairs on this plant which was put in operation in 1928.

It was found necessary to replace the chlorinating apparatus located on the inlet brooks to Crystal Lake.

During the month of August the water level in Crystal Lake had dropped to a point where it seemed advisable to provide additional supply. After consultation with Weston & Sampson it was decided to drive twelve additional wells, making a total of twenty-eight. These wells were operated for a period of three months, after which time the lake had returned to its normal level.

The cost of water pumped from these wells was considerably less than that from the main station. Considerable valuable data was obtained relative to the probable yield of this supply.

The department has replaced old cement lined pipe with iron pipe in the following streets:

Center Street.

North Avenue, from Church Street to the Wakefield Coal Supply Company Office.

Mechanic Street.

Crescent Street, from Center Street to Mechanic Street.

Lake Quannapowitt has received its usual care and attention, copper sulphate having been applied on the following dates: June 6, 1932, July 29, 1932. We recommend that this treatment be continued.

The Board again recommends that no further sewer extension be made until a proper survey has been made of the unsewered section of the town.

The Superintendent's report which follows gives in more detail information as to construction, improvements and so forth, which will be of interest to the Town.

WILLIAM B. STANTIAL,
GEORGE H. STIMPSON,
SIDNEY F. ADAMS,

Commissioners.

PERMANENT IMPROVEMENTS

During the year the garage at the Pumping Station has been reshingled with fire-resisting shingles.

The Chlorine Stations, on the inlet brooks to Crystal Lake have been repaired and painted, also the old Chlorine machines have been replaced with new ones.

WATER SUPPLY

Crystal Lake, Wakefield's water supply, is at present two inches below high water mark.

From September 17 to December 2, 19,580,600 gallons of water were pumped from the driven wells off Nahant Street.

DRIVEN WELL SUPPLY

During the year twelve additional wells were driven and connected with the existing suction main.

On September 6 the Department leased and installed a belt driven triplex pump and a thirty-five horse power motor at the wells for a period of ninety days, terminating on December 6; during that time 19,580,600 gallons of water were pumped into the distribution system for domestic use.

LOW LEVEL SEWER SYSTEM

As in the past, the low level sewer system has given complete satisfaction during 1932.

SEWER MAINTENANCE

The entire system has been brushed and cleaned and all broken or damaged covers and frames have been replaced or repaired.

In conclusion, I wish to extend my sincere thanks to each and every member of the Department for his co-operation in all emergencies during the year.

I also extend my thanks to the heads and members of the various Town Departments for their support and co-operation during the year.

Respectfully submitted,

MORRISON MERRILL,

Superintendent.

Report of Municipal Light Board

To the Citizens of the Town of Wakefield:

We herewith submit the thirty-ninth annual report of the Municipal Light Board, which covers the year ending December 31, 1932.

Annexed to this report, you will find the report of the Manager of the Plant, which includes statements showing financial condition of this Department, as of December 31, 1932 and of its operations for the year.

The Gas Department was operated at a profit of $13,823.18 as compared with $20,553.17 for 1931. The decrease in profit is due to the reduction in the net rate from $1.50 to $1.45 per M. C. F., which became effective March 1, 1932 and to the decrease in the amount of gas sold, the decrease being approximately 3,300,000 cubic feet.

The Electric Department was operated at a profit of $30,472.37 as compared with $48,001.30 for 1931. The decrease in the profit of this Department is also due to the decrease in rates to all classes of consumers and to the decrease in the amount of electricity sold, particularly in respect to Commercial Power consumers.

The amount that we are asking the Town to appropriate for street lighting for 1933 is $18,000.00, which is the same as has been appropriated for the past six years. The amount asked is, we believe, considerably less than that which would be asked by a privately operated company, and as a matter of fact we are selling the Town energy for this purpose somewhat below the average delivered cost, as defined by the General Laws.

The amount of cash in the Operation Fund as of December 31, 1932 is $31,687.59 as compared to $57,543.89 in 1931. The decrease is due to the decrease in our sales, the difficulty in collecting some outstanding accounts, and a slight increase in our Operation Expenses, because of the fact that the Department assumed the maintenance of the Fire Alarm and Police Signal Systems.

We propose to ask the town at its annual meeting to authorize a transfer of this balance, $31,687.59, to our Construction Fund, in order that we may make the necessary extensions and improvements so that we may give to the citizens the best possible service at the lowest possible rates, for both gas and electricity.

The books of the Department are being audited by C. O. Huntington and Company, Certified Public Accountants.

Respectfully submitted,

MARCUS BEEBE, 2nd, *Chairman*,
A. FRANCIS HARRINGTON, *Secretary*,
CURTIS L. SOPHER,

Board of Commissioners,
Municipal Light Department.

January 3, 1933.

To the Board of Light Commissioners,

Town of Wakefield, Massachusetts.

Gentlemen:

It is with considerable pleasure that I again hand you my Annual Report of this Municipal Department, for the fiscal and calendar year ending December 31, 1932.

Every year since the establishment of this Department (1894) has seen an increase in the cubic feet of gas and the kilowatts of electricity sold, and consequently a constantly increasing income. Nothwithstanding the depression we have a substantial profit on both gas and electricity at rates comparable with any in the neighborhood.

GAS DEPARTMENT

The net sales of this department were $129,316.44, the operating expenses $114,343.90 and a net income of $13,823.18.

ELECTRIC DEPARTMENT

The net sales of this department were $177,911.10, the operating expenses $143,562.08 with a net income of $30,472. 37.

BONDED DEBT

This item for the entire plant is now $111,500.00 having been reduced by $12,500.00 this year.

PROPERTY AND EQUIPMENT

Plant investments and general equipment have been increased $32,472.21 of which the greater part is the extension of underground electric conduit.

Gas main extension has been small compared with that of two and three years ago. Much of the work being the completion of circuits, so that by means of valves, a section may be cut off for emergency without shutting off the entire district.

A new main was laid in Mt. Pleasant Avenue from Nahant Street southerly and an extension of main in Montrose Avenue from existing line to Salem Street. The Center Street main has been replaced with larger pipe and relocated, and all house services replaced with increased size.

The program of a year ago has been continued in the extension of electric underground duct lines, extending the existing lines in Chestnut Street from Main Street to Prospect Street and Park Avenue from Chestnut Street to the Stoneham line.

Underground service connections have been made with all residences and business places in Foster Street from West Water Street to Albion Street, in Albion Street from Main Street to North Avenue and in North Avenue from

Richardson Avenue to Chestnut Street, so that this section of the town is served electrically by underground lines, except for some so called back lot construction by the New England Telephone Company.

This year the Federal tax on "Electrical Energy" has been assessed at 3% of the face of the bill, with few exceptions, this tax has been a part of your bill since August and return has been made each month to the Collector of Internal Revenue.

I again wish to express my appreciation for the co-operation given me by the Board of Commissioners under whom I have served. To the employees I express my sincere thanks for their loyalty and for the faithful work they have performed during the past year.

Yours respectfully,

SAMUEL H. BROOKS,

Manager.

Fire Alarm and Police Signal Systems

January 3, 1933.

Municipal Light Commissioners,

Town of Wakefield, Massachusetts.

Gentlemen:

At the beginning of the year the Light Commissioners proposed that the operation and maintenance of the Fire and Police Signal systems would be undertaken by their department, without cost to the Town. This has been done and I report as follows.

One new box previously purchased has been installed on the Fire Alarm system, Box No. 156 at corner of Druid Hill Avenue and Spring Street. The whistle valve at the Heywood-Wakefield Bros. Plant has been overhauled and repaired, and all circuits carefully examined.

The system is in first class order on the outside and, inside the battery room has been cleaned and painted and the batteries overhauled and replenished. It is probable that a new repeater will be required in the future and with that a new switchboard.

The Police Signal System is in good working order, a new trickle charging machine has been installed, which is silent and is efficient in keeping the batteries up to standard, leaving the motor-generator as a standby. No extensions have been made this year, but provision for another box with audible and visual alarm has been made, to be located on Melvin Street near Bennett Street.

The battery room in the Town Hall has been cleaned and renovated, batteries renewed and room made as near dust tight as possible.

Respectfully submitted,

SAMUEL H. BROOKS,

Manager Light Department.

WINFIELD S. RIPLEY

Mr. Winfield S. Ripley who became a member of the Board of Trustees of The Lucius Beebe Memorial Library in 1911 brought to this civic service a very keen interest in all the phases of the work.

A lover of books himself who had built up a private library of no mean proportions, he brought to the work on the Library Board an extensive knowledge of books and a discriminating sense of values which it would be difficult to duplicate. His regard for the work of the Library was one of the serious interests of his life and no call connected with it was ever too trivial for his serious consideration. The many volumes which he gave to the Library are a very tangible evidence of his interest.

In quite a different way his grasp of the financial problems which constantly arose also showed his interest. His service as Chairman of the Board and later as Chairman of the Finance Committee of the Board brought him into close touch with every detail and every expenditure, to each of which he gave his personal consideration.

In addition to the literary and financial service he gave so generously, the Trustees will miss the cheery greeting and the keen sense of humor which were also a marked characteristic of Mr. Ripley.

The Trustees of The Lucius Beebe Memorial Library herewith submit the seventy-seventh annual report for the year 1932.

In contrast with the continued economic stagnation in the business world, the facilities offered by the Library have been used more widely than in any other year of its existence. The lessened opportunity for employment has afforded an increased amount of leisure for reading and thus the Library has been a source of comfort and inspiration to many. The calls have been very varied and sometimes the resources have been taxed to the utmost, but each problem has been met with genuine interest by the staff and rarely has a patron gone away without the help sought.

The year 1932 has brought no startling changes; there are no great events to record but the Trustees believe that a report of steady, day-by-day service is the best sort of report to be able to make.

Some years ago the Mother's Club started a custom of giving a sum of money to be spent for books of special interest to mothers and they have continued the custom this year with a gift of ten ($10) dollars. By means of these yearly gifts, a collection has been built up which is of a very real value and which is available to all the mothers of Wakefield.

By the will of Mr. Melvin J. Hill the Library has received the sum of $500.00.

The Library has been remembered generously by many friends during the year. There have been gifts of books, magazines, and flowers. Mr. Harris M. Dolbeare and Mr. Gardner Campbell have been generous with space in the Daily Item, a generosity which has been of great benefit to the Library and its patrons. To all these friends, the Trustees wish to extend their thanks.

In September the Trustees and the Library met with a distinct loss in the sudden death of Mr. W. S. Ripley who had served on the Board since 1911. The following appreciation was sent by the Trustees to Mrs. Eva G. Ripley, to the Daily Item and was spread upon the records:

> Trustees of The Lucius Beebe Memorial Library wish to express to the family and friends of Mr. Winfield S. Ripley their sincere appreciation for his loyal and generous service as a member of the Board.
>
> As its chairman for many years he gave devoted service, never sparing time nor energy in solving the many problems which arise constantly in public work.
>
> As the library increased in its scope he kept pace with every advance and was always ready with suggestions to smooth the way. The new building was a great delight to him for it made possible a service which he had desired for many years. He kept in close touch with every phase of the work, whether financial or literary, and again and again when a question came up as to some previous action or custom some one would say, "Mr. Ripley will know," and he always did.
>
> In his sudden passing the trustees and the public have met with a loss which will long be felt.

The death of Mrs. Bertha Round in November 1931 and of Mr. Ripley in September 1932 brought about two changes in the personnel of the Board. At a joint meeting with the Selectmen on January 12, Mr. John J. Round was chosen to fill out the year of Mrs. Round's service and in March he was elected to fill out the term. At a joint meeting on October 4, Mrs. Alice W. Wheeler was elected to finish the year of Mr. Ripley's service.

It is always a pleasure for the Trustees to express their appreciation of the loyalty of the staff. This year, when everywhere conditions have been so unsettled, has been especially marked by the willing, helpful service of every member.

According to statistics of Library circulation per capita as compiled from the 1931 reports by the Division of Public Libraries, Department of Education,—Wakefield, Amherst and Westfield stand at the head of the group in towns of from 5,000 population up.

The circulation for the year 1932 is as follows:

Main Library	181,167
Greenwood Branch	54,499
Schools	8,147
	243,813

This shows a gain of 23,230 over the circulation of 1931.

In the first full year in the new building, 1924, the circulation was 114,191; this year, as has been stated, it is 243,813 or over twice as much.

In 1924 there were 25,052 books in the Library, this year there are 51,834.

The expense in 1924 was $19,653.67, this year it has been $25,349.79.

In other words with an increase of over 100% in the circulation and in the number of books, the expenses have increased only 29% and it must be remembered also that the Library carried on many other community activities.

In accordance with the vote of the Town at a meeting held in June, the pay of all employed in the Library Department was reduced ten percent for the remainder of the year, beginning with July. Careful planning of expenditures, as well, has made it possible for the Trustees to report an unexpended balance of $1,033.13.

FLORENCE L. BEAN,

Secretary.

LIBRARIAN'S REPORT FOR THE YEAR 1932

To the Trustees of The Lucius Beebe Memorial Library:

In the year 1932, 7,364 library borrowers were registered, 45% of the population of the town according to the 1930 census figures—16,318. While numerous people may have moved away from town new borrowers have come to the library. The borrowers are re-registered every two years so that this total does not include old, unused names.

These 7,364 borrowers took out on loans from the library 243,813 books, magazines and pamphlets and about 5,000 pictures (4,952 is the exact figure.) This means that each borrower *averaged* 33 books during the year, or that 14 books were borrowed for every resident of the town. The total circulation of library material is over 10½% more than last year's total, an increase of 23,230. In one day 1,600 library books were issued to Wakefield borrowers.

In the interests of economy of time and service, no regular record is kept of all the requests and reference questions asked and information given. Of the hundreds recorded in one month, however, a few listed may give a slight suggestion of their scope and a hint of some of the needs filled by the library:

Health of Massachusetts towns.
Use of oil instead of steam in power plants.
Domestic oil burners.
Air circulation of refrigerators.
Wakefield water supply.
Separation of words in song writing.
Foreign advertising material.
Pictures of designs.
A silk manufacture process exhibit.
Vatican Council.
Details of all political platforms.
Races of the world.
Meat packing.
Building laws.
Compulsory automobile insurance laws.
Smoke in cities.
Commerce of Boston.
Police pensions.

3,497 books were catalogued and prepared for the shelves; of these 812, 23% or nearly one fourth of the total books purchased, were replacements of books needed but worn out.

Pictures and pamphlets are constantly being added from clippings and cuts from old magazines and newspapers. 156 magazines were received and prepared for circulation each month.

12,000 books were repaired, and 2,134 books were rebound as well as 63 volumes of magazines.

Ordinarily the volume of service to the public decreases in April and Decem-

ber. In 1932 there was no such decrease at these times. Even on the day before Christmas nearly 700 books were issued.

Not only increased circulation but increased attendance at the library for reading or studying, during the day and especially in the evening has been marked. Crowded were the children's room and the adult loan department of the main library during the evenings this fall. The book stacks were full and people were awaiting their opportunity to read the newspapers. Since in the town no other free meeting place for all may be found, the library has been used for this purpose by the restless youth who have no interest in reading,—providing a community problem that today makes the giving of service to library patrons difficult as well as exhausting at times, and brings factors into the library which have nothing to do with legitimate service.

The various departmental projects described in previous reports have been continued this year:—work with the High School Library and the High School students, book deposits in school rooms at the other schools sent every three months, exhibits in the Main Library and Greenwood Branch, talks on books to various groups by different members of the staff.

The publication of the check-book lists of new books each month was discontinued in the interests of economy; in December the following special lists of recent books were published:

FOR YOUR LESISURE—"Profitable hours," listing various "different" occupations.

IN THE ECONOMIC WORLD—including books of "As we are," "The gold standard," "Plans for the future."

ROADS TO LIVING—"Life's adventure" and tales of "How others have lived."

EDUCATION—both mental and physical as well as about child welfare.

FOR THE SPORTSMAN—outdoor sports and indoor games.

WANDERLUST—travel books around the world.

The colorful posters in the library as well as the posted book covers and fiction lists on the bulletin boards near the book stacks in the adult department, and the use of attractive lists in the Children's Room brought attention during the year to material on a large variety of subjects. At the Greenwood Branch the projects and exhibits featured many kinds of special material.

Valuable publicity has been given to the library by the Wakefield Daily Item as in previous years,—a feature which obviously the public uses as guides to reading.

In this year of stringent economy the building has not been allowed to get out of repair. It was necessary to have the outside steps recemented. The Lecture Hall, the only part of the building untouched since it was built, was repainted and celotex panels provided for picture exhibits. The building is now in excellent condition.

Members of the library staff attended the meeting of the Massachusetts Library Club in Boston last January. Various meetings of the Cataloguing and Children's Librarian's Sections have been attended by the members especially interested.

I mention my sincere sorrow at the passing of Mr. Winfield S. Ripley, a member of the Library Board for many years. Those years of experience, together with his literary interests and the brilliance and humor obvious despite his modesty and reserve, made my professional relations with him especially happy.

In this period of "deflation of moral and spiritual values"—as a Cincinnati newspaper has termed this time of serious mental depression—the people of Wakefield have used the library more and more to serve their needs.

I know that you are glad of the growth of the library and its response to these needs. I wish to emphasize and bring to your attention the loyalty and industry of the members of the library staff whose interest and efforts have been unstintingly given in providing for the needs of the library patrons. It is probable that the library service next year may be of greater volume. I, therefore, recommend to you, in determining your policy toward the staff, that due consideration be given to these factors.

Respectfully submitted,

HELEN FRANCES CARLETON,

Librarian.

Report of the School Committee

To the Citizens of the Town of Wakefield:

The Annual Report ot the School Committee for the year ending December 31, 1932 is herewith respectfully submitted.

We fully realize that the present is a time for retrenchment and have acted accordingly. During the past year we have so conducted the business of the School Department as to take advantage of every proper opportunity to economize, when such economy would not materially impair the efficiency of the system. This is evidenced by the fact that at the end of the year we returned to the town an unexpended balance of $8,131.07. The amount could easily have been expended for various improvements and accessories which might quite rightly be considered essential, but the Committee has conscientiously refrained from making any expenditures which were not absolutely necessary.

The policy of retrenchment has resulted in a series of small economies, which together with the teachers' salaries reduction amounts to a very respectable sum. A partial list of these economies embraces the abolition of the positions of two principal's assistants, primary supervisor, intelligence tests, military drill, sewing in the grades, unnecessary telephones, principals' convention expenses, book purchases for High School library, as well as others of even lesser magnitude.

The per pupil cost for all the schools in 1931 was $92.63, while in 1932 it was only $89.45, a saving of $3.18. During the same period the average per pupil cost for all cities and towns in the state was $100.07 in 1931 and $99.19 in 1932. This brief allusion to comparative costs, which are, as a matter of fact, only partially satisfactory at best, does show that the cost of maintaining the schools of Wakefield, figured on a per pupil basis, is about ten percent less than the average per pupil cost for all cities and towns in the Commonwealth.

The budget for 1933 has been scanned very carefully and cut whenever it seemed to be feasible without lowering the efficiency of the schools. The education of the children must be taken care of properly now for it can never be made up to them. The children of today are the citizens of tomorrow, and must receive training to equip them to take their places in society, and to enable them to do their share in operating the municipalities, the State, and the Nation.

In June the Town voted to recommend a 10% decrease in salaries up to December 31, 1932. The committee has voted to continue this decrease for the year 1933.

From the Report of the Principal of the High School: The enrollment in the High School at the beginning of the school year was as follows:

	Boys	*Girls*	*Total*
Post Graduates	10	18	28
Seniors	99	105	204
Juniors	112	106	218
Sophomores	138	135	273
Freshmen	182	184	366
Eighth Grade	119	106	225
	660	654	1314

The enrollment for the four year high school was 1,089. In the morning session there were 723 pupils and in the afternoon session 591. The building was built to accommodate comfortably 750 pupils. We have nearly that number now in the three upper classes.

You may wonder whether the pupils are doing as well under the double session plan as previously. That is hard to tell yet. It will take several years to get any reliable data. Under the old plan each pupil was in school seven periods daily and now most of them are in school only five. It is difficult for the teachers to assist pupils as much now as formerly as the classes are larger and the pupils do not have so many study periods as under the old system.

Of last year's graduating class 31 went to higher institutions of learning, which I consider a large number. In fact for the last four years 166 pupils entered colleges, or normal schools, or higher institutions of learning directly from high school, which is a remarkable record. This refutes the statement we often hear; namely, that we cannot prepare pupils for college.

We had no military drill this year on account of the crowded conditions and so far as possible each boy was given gymnasium work. To do this the gymnasium was in use practically ten periods each day and some classes were too large to do much real work. I recommend that the gymnasium work be made compulsory for the first two years for boys and girls and elective the last two years, especially while we operate on the morning and afternoon plan.

This year, in addition to its use as a reference room, the Charles H. Howe Memorial Library has been used as a study room in the afternoon with half of its seats occupied by study pupils during practically every period. During Book Week of this year the library conducted a campaign of soliciting books from the faculty, pupils and friends of the school. Four hundred and six books were received and about one half of them can be used on the shelves and the remainder can be sold or put to some benefit. It is impossible to estimate the actual money value of the books received, but it may safely be stated that it at least reached $150.00.

Below is a list of subjects taught and the number of pupils taking them:

From a report on the afternoon session at the High School:

The curriculum is the same for the eighth grades as that of last year except that sewing for the girls is eliminated and one period a week of Written English Composition has been added. The written work has been much poorer than the oral and I felt that a definite period might strengthen the written work.

Nine classes of freshmen come to school at 12.10 o'clock and three other divisions of Freshmen beside seven divisions of eighth graders come at 1.00 o'clock. This difference of hours for entering is necessary on account of the time schedule. This makes it difficult for those who live any distance to come to morning sessions for help and return home for lunch and then return again to school. Adjustments have been made as far as possible to eliminate this condition for those who live a long distance.

There are many difficulties attendant to the afternoon session. The number of activities carried on during the afternoon bring many pupils to the school besides those attending classes. Among whom are those attending Orchestra rehearsal, Band rehearsal, Football and Basketball practice, afternoon session for the morning division, play rehearsals, and club meetings.

The Washington Bicentennial was celebrated in all the schools of the town. This celebration took various forms and engaged pupils, teachers, and lecturers. The pupils gave recitations, wrote themes, longer and shorter, and made scrap books, many of which were profusely illustrated and showed great originality of plan and design. The teachers gave specially prepared talks, which emphasized the human side of Washington. Other talks were given by lecturers who had made a special study of Washington's life and times; and in April in a series of presentations the pupils viewed a moving picture which showed the great events of Washington's career. This general program had its climax on the graduating exercises of the Senior class of the High School which concerned Washington's opinions and ideals.

From the Report of the Physical Director: "Today education aims to provide not only information and learning, but to help each individual to realize his highest physical, mental, spiritual and social possibilities. To reach his highest development, each person should have abundant vitality, and a healthy mind and body. In order to develop personalities one must understand the value of health. This means freedom from illness; it means that the individual must have a strong active body full of energy. Young people of school age would be expected to be well and vigorous but unfortunately ill health is common among the pupils, especially of the high school age because of their ignorance and the lack of practice in good health habits. It is therefore the aim of the teachers of physical and health education to stimulate the children to form and practice these proper habits which build a strong, healthy body and a bright keen mind. Thus, through exercise by means of play and games, we increase the efficiency of the various systems, such as the circulatory, digestive and respiratory."

From the report of the School Physician: "Attention is called to the fact that for the second consecutive year no case of diphtheria has been reported among the pupils attending school anywhere in town. How far it is due to immunization it is impossible to tell, but it never happened previous to immunization.

In 1931 we immunized 175 pupils. We have this year given them the schick test. Of this number only ten were susceptible and these were re-immunized. We have immunized 275 this year which is a larger number than usual. These will be schicked in the near future.

The first grade, fifth grade, and the first year high school pupils have been given a complete physical examination, and as a result 555 notices have been sent home. Of these 219 were for defective teeth, 238 for diseased tonsils and adenoids, 44 for underweight, 11 for organic disease of the heart, and the balance for various minor defects. There was a much smaller number of underweight children than usual, this decrease was most noticeable among the freshmen girls.

All other pupils were examined early in 1932 for defective teeth and nose and throat defects, and 540 notices sent home, of which 380 were for defective teeth, 145 for diseased tonsils and adenoids, and the remainder for minor defects of the skin and scalp.

In December another examination of these were made and 625 notices were sent home. The distribution was about the same. In all, over 1,700 notices were sent home calling attention to defects. It is not expected to make two examinations every year, but this came about through a re-distribution of the year's work, bringing a general examination in January and another in December.

The number of notices was large this year. Not quite so good attention has been given the teeth, and many pupils with badly diseased tonsils have not had treatment for financial reasons. However there was a much larger number of pupils having perfect teeth, none missing, no decay, no fillings, which is most encouraging.

There is no known active case of tuberculosis in the schools. Much effort has been given to detect probable infection through the "State follow up clinic," and examination of contacts and suspicious cases at the state sanatorium at North Reading. This part of the work has been done by the School Nurse and the Board of Health Nurse.

I have examined the candidates for all athletic teams, also the girls who enter competitive sports. I have examined many boys and girls referred for some special condition. I have attended the football games played in Wakefield and treated minor injuries. I have examined at my office many boys sent by the coach for injuries received in practice and given first aid treatment when needed."

From report of the Attendance Officer: "I have investigated and taken care of the following cases:

Sickness	113
Truancy	75
Tardy	24
Kept out by parent or guardian	17

Lack of shoes, clothes and food	131
Found on street and taken to school	2

I have made several calls at the homes of pupils in the evenings and Sundays and have talked with the parents regarding their children with good results."

APPROPRIATION AND RECEIPTS

The Committee has submitted a budget which calls for an appropriation of $268,000.00 for the year of 1933. Properly deductible from this amount is about $46,000.00, the estimated receipts through the department. Although these receipts are paid into the Town Treasury, they favorably affect the tax rate and leave about $222,000.00 to be raised by local taxation.

The estimated receipts are from the following sources:

Commonwealth of Massachusetts, on account of teachers	$23,991.00
Commonwealth of Massachusetts, Tuition, State Wards	2,600.00
Town of Lynnfield, Tuition	14,688.96
City of Boston, Tuition, City Wards	2,100.00
Town of Saugus, Tuition	1,170.24
Town of Stoneham, Tuition	219.42
Individuals, High School Tuition	232.48
Individuals, Elementary School Tuition	438.84
Receipts from Lumber	400.00
Receipts from Telephone Calls	25.00
Miscellaneous	75.00
	$45,940.94

CLASS SONG

ALMA MATER

Thou hast not tall or stately spires
  Ascending toward the skies;
No sculptor's work of art is here,
  Or round about thee lies.
Yet Wakefield High, thou art to us
  A great and sacred shrine;
We'll keep within our memories
  These dear old walls of thine.

We know not what the future holds
  Of gladness, wealth, or pain;
But wisdom learned within thy halls
  With us long will remain.
The friendships of these happy years
  We'll keep where'er we go;
And always praise thee, School of Ours—
  Thy vision made us grow.

CHORUS

We'll honor thee as on we go
  Through paths that lie ahead;
And by our loyal, upright lives
  Thy faithful teachings spread.
In foreign lands—on distant seas—
  We may our fortunes try;
It matters not where'er we roam,
  We'll love thee, Wakefield High.

Words by Marjorie W. Wellman, '32
Music by Eleanor Nutt, '32

The accounts of the Treasurer have been examined and agree with the Accountant's books. Cash balances have been verified by bank statements. All permanent and temporary loans cancelled during the year by the Treasurer have been examined and found as reported.

I take this opportunity to thank the Honorable Board of Selectmen, and all other Town Officials who have co-operated and assisted in the work of this department.

Respectfully submitted,

HARRY A. SIMONDS,

Town Accountant.
